GARTH J.S. COOPER ET AL  
Serial No.: 07/236,985

This is in answer to applicants petition to make special under 37 CFR 1.102(d) and 1092 TMOG 10 (July 19, 1988), received June 15, 1989.

Applicants petition and accompanying declaration show that each of the three required criteria for granting special status have been met. Applicant is a small entity; the subject of the patent application is a major asset; and the development of this technology will be significantly impaired if examination is delayed. Therefore, this application is Granted Special Status throughout its prosecution.
